

EDUC 536 – Fall 2019: Final Research Presentation Rubric

Content (x2)

- Presentation provides a good overview and authors demonstrate a correct understanding of the various elements of the research process – Introduction/Motivation, Review of Literature/Theoretical Framework, Purpose/Research Questions, Methods (including Instrumentation, Sampling, and Data Analysis Procedures), Results, and Discussion/Conclusion (including implications, limitations, and next steps).

Organization

- Presentation is well-organized and presented logically with a good flow from one slide/topic to the next.
- Presenters use the time allotted effectively.

Delivery

- Presenters speak clearly and maintain focus on the paper/project.
- Presenters are not completely reliant on the slides and/or reading directly from the slides.
- Speaking duties are shared equally by all team members.

Use of Media

- Slides are readable and interpretable without grammatical errors.
- Slides are not too text heavy.
- Visuals are well-integrated into the presentation with appropriate titles/labels.

Response to Questions

- Presenters demonstrate full knowledge of the project and can clearly explain, elaborate, and respond to questions.
